SUBJECT: <u>Rockslide in Zion N.P.</u>			

Sometime before 2:30 a.m. on April 25th, 1991, a rock slide occurred in a road cut about 100 yds. east of the entrance to the long tunnel in Zion N.P. Boulders up to car sized blocked road; drilling + blasting off road. Depth of deposit at its deepest is @ 10-15'. Precluding signif. rd. damage or need to stabilize wall cut, road should be re-opened by mid-afternoon. One lane should be cleared for service vehicles shortly. Rock cut reaches to @ 50' above rd.
