8 Dec 90

Dear Tracy -

I have gone to some trouble to obtain the Utah Dept. of Transportation map of the freeway interchange at Mills and have plotted it here as accurately as I can. I had previously plotted it in your map where I had stitched it in. You need to be sure to plot it as given. It's a big map along with the other maps for the U.S. MS.

After all, the freeway is where most people will use your map and it must be shown.

Best wishes

John
